REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
Microsoft Corporation Savings Plus 401(k) Plan
Redmond, Washington

We have audited the accompanying statements of assets available for benefits of the Microsoft Corporation Savings Plus 401(k) Plan (the "Plan") as of December 31, 2006 and 2005, and the related statements of changes in assets available for benefits for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in assets available for benefits for each of the three years in the period ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

MICROSOFT CORPORATION SAVINGS PLUS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Microsoft Corporation Savings Plus 401(k) Plan ("the Plan") is a defined contribution plan. Eligible employees of Microsoft Corporation ("the Company") who have reached 18 years of age may enroll at any time; entry dates are the 1st and 16th of the month following enrollment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. The Plan is administered by the 401(k) Administrative Committee. The information below summarizes certain aspects of the Plan. For complete information regarding Plan provisions, participants should refer to the Plan Document.

The Plan includes an Employee Stock Ownership Plan ("ESOP") feature for the benefit of persons eligible to participate in the Plan. This feature allows employees the option to receive a cash dividend payout or to reinvest the dividend on shares of Microsoft common stock invested in the Company stock. Employees not part of the Microsoft controlled group are not eligible to be part of the ESOP. Instead, dividends paid on contributions and the earnings that accumulate on those contributions that are invested in the Company stock will automatically be reinvested in the Company stock.

Contributions: Participants may contribute from 1% to 50% of their eligible pre-tax compensation, tax-deferred, through payroll deductions subject to regulatory limitations. Participants may make Roth contributions from 1% to 50% of their eligible after-tax compensation through payroll deductions subject to regulatory limitations. Participants may also contribute from 1% to 7% of their eligible after-tax compensation through payroll deductions. Participant contributions may be suspended at any time and reinstated at any subsequent entry date.

Participants reaching 50 years of age or older may contribute an additional 1% to 75% of their eligible pre-tax compensation, tax-deferred, through payroll deductions subject to regulatory limitations. Participants reaching 50 years of age or older may also contribute an additional 1% to 75% as Roth catch-up contributions, to be deducted from their eligible after-tax compensation through payroll deductions subject to regulatory limitations. These catch-up contributions are not matched by the Company.

The Company makes a matching contribution each pay period equal to 50% of a participant's pre-tax contributions, up to a 6% contribution rate. The maximum Company match is 3% of the participant's eligible compensation, subject to regulatory limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. All amounts in participant accounts are participant-directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Employee and Company contributions are both immediately 100% vested.

Distributions: Active participants may make a withdrawal from cumulative salary deferrals, after-tax contributions and after-tax contribution earnings if the withdrawal is necessary to avoid a financial hardship; or, if the participant is at least 59-1/2 years of age, a withdrawal may be made from the vested portion of their account. Distributions may also occur if the participant retires, becomes permanently disabled, dies, or terminates employment. Distributions of investments in the Company's common stock may be taken in the form of Company common stock or cash.

Administrative expenses: A \$100 loan setup fee is paid by employees for initiation of a participant loan. All other expenses for administration of the Plan are paid by the Company.

Plan amendment and termination: The Company has the right to modify, amend, suspend or terminate the Plan at any time and for any reason. If the Plan is terminated, account balances will be fully vested and will be distributed in the form and manner determined by the Plan Administrator.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Valuation of investments and participant loans: Investments in funds are recorded at fair value based on quoted prices. Participant loans are recorded at principal balance, which approximates fair value. Security transactions are accounted for as of settlement date as the resulting difference compared to the trade date is immaterial. Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

NOTE 2: INVESTMENTS

Fidelity Investments ("Fidelity") is trustee of the Plan. All Plan investments are held by Fidelity. Participants direct the investment of their contributions and the Company's matching contributions into the various investment options offered by the Plan. Plan participants may invest in the following funds. As with any mutual fund, there is no assurance that the funds' goals, as summarized below based on information made available by Fidelity, will be achieved.
